ASSOCIATES EAP MENTAL HEALTH DISCLOSURE

Whether you contacted EAP yourself or were referred to us by someone else, the information provided by you during counseling sessions is legally confidential unless you give specific written consent for us to release particular information. It is important to note, however, that EAP therapists are required by law to report homicidal or suicidal intent as well as indications of child sexual/physical abuse or neglect.

Our goal is to provide you with the best service appropriate to your needs. Your EAP Counselor will be conducting an evaluation and working with you to determine how best to help you with your problem. If we believe that another person, agency, or service can assist you further, we will (with your permission) refer you to them. If you choose to accept this referral, all financial arrangements are your responsibility. Associates EAP is limited to working with short-term issues. Problems that require more than a few sessions must be referred into your medical insurance. We can offer no guarantee that you can continue working with your same counselor under your insurance plan but we try to participate with as many insurance provider panels as possible.

You will receive information about your EAP counselor and about the methods of counseling. Information includes the therapist's name, educational degrees, licenses, and credentials. You may seek a second opinion from another therapist and may terminate counseling at any time.

Any time you have questions, comments or complaints about our services, please contact Dr. Annette Long, Clinical Director of Associates for Psychotherapy & Education at 924 Indiana Ave, Pueblo, CO 81004, 719-564-9039. The practice of psychotherapy is regulated by the Department of Regulatory Services, and questions or complaints may also be addressed to them at 1560 Broadway, Suite 1340, Denver, CO 80203, 303-894-7766. In a professional relationship, sexual intimacy is never appropriate and should be reported to the grievance board.
